--- 1/9th Pound *new design* Series “C” with a *blue central denomination* - 22 x 42 mm. ---

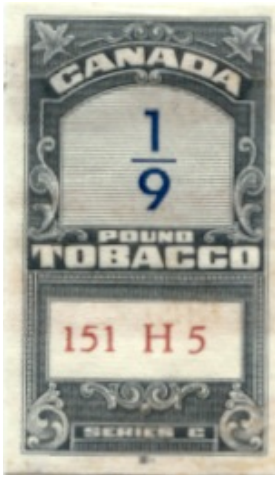
The collection currently contains five copies of **RN-260**, the *imperforate* 1/9th pound ***new design*** Series “C” with a ***blue central denomination*** as used by Import Licensee **151**. The coding reads an alphabetic month, plus the year.



RN-260 - 1/9th pound *new design* Series “C”, imperforate, with a ***blue central denomination***, coded **151 H 5** by Import Licensee # **151** in August 1965

The coding from Licensee # **151** on the ***blue central denomination*** figured stamp now switches to a plain *two-digit* number, with the first collected example being **151 36** - without many examples, I read this as the 36th week of 1966. This date coding probably reads in months with a two digit consecutive number from **36** - September 1966.

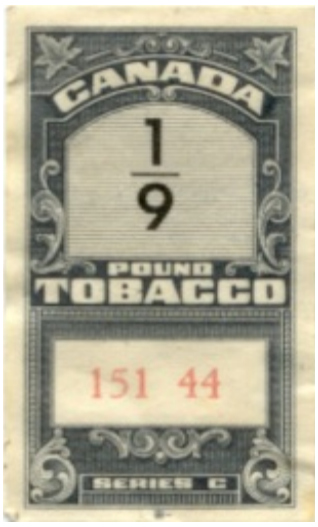
The ***blue ink*** central denominations of **RN-260**, switch to the 1/9th pound ***black ink*** denominations of **RN-290** in 1967 at least by **151 39**.



RN-290 - 1/9th pound *new design* Series "C", imperforate, with a ***black central denomination***, coded **151 44** by Import Licensee # **151** - from May 1967

The "Maple Leaf" ounce series begins late in 1970. The 1/9th pound stamp calculates as 1.78 ounces, so there was no near equivalent in this new series.
